Importance: High

Hi Eric,

I don't check our "FR Notices" box much and just so happened to go into the mailbox this morning.

It looks like a Center for Food Safety attorney is asking for a document that is not in the EUP docket. Sorry I didn't get this to you earlier, and I hope this individual also reached out to Bob (or someone in ETB) directly.

Please let me know if you have any questions.

Thanks,
Jeannine

Subject: Question RE: Docket # EPA-HQ-OPP-2019-0274; EUP approval for Oxitec OX5034 Mosquito
Importance: High

Dear Mr. McNally,

I am emailing to request that EPA provide Center for Food Safety (CFS) with the "Human Health and Environmental Risk Assessment for the New Product OX5034 Containing the Tetracycline Repressible Transactivator Protein Variant (tTAV-OX5034; New Active Ingredient) Protein, a DsRed2 Protein Variant (DsRed2-OX5034; New Inert Ingredient) and the Genetic Material (Vector pOX5034) Necessary for Their Production in OX5034 *Aedes aegypti*; Data and Information Were Provided in Support of a FIFRA Section 5 Application" that EPA refers to multiple times throughout the document titled "Response to Comments to the Notice of Receipt of an Application for an Experimental Use Permit Number 93167-EUP-E" published May 1, 2020 in the Docket EPA-HQ-OPP-2019-0274. If EPA is unwilling to provide CFS with this document, CFS requests that EPA provide a reason for withholding it.

Thank you for your attention to this request.

Sincerely,
Tori
